

CONTENTS

This section contains Door Knobs, Ring Pulls, Levers, Escutcheons, Turn Pieces and Key Covers. Dimensions given in this section are for actual levers or knobs only. To calculate overall depth from face of door to outside of lever or knob, add 5/8" to shaft length for 900 and 1200 series plates, and 1/2" for all other plates. The shaft on any knob or lever can be extended up to 2" to accommodate blinds or other special applications.
